

COMPANY PROFILE

2019

ABOUT US

Haemonetics East Africa Limited is a company operating in the Medical, Research, Production, Food and Beverage, QC Sectors. HEAL, which was founded in Kenya, in 2013, is essentially a supplier of laboratory reagents and instrumentation to research institutes, hospitals, universities, technological institutes, veterinary practices, industrial and pharmaceutical companies throughout East Africa.

Closer inspection of our agencies list will disclose the variety of products which make up our portfolio. Our ever increasing product range is regularly reviewed to ensure that we meet the changing needs of our customers. techniques are an on-going feature of diagnostic and research laboratories.

Our professional expertise enables us to provide quality advice and guidance, which effectively controls cost, eliminates waste and maximizes efficiency. HEAL believes that products should be augmented by first class support material, which is an integral part of the laboratory supply business in the present day. Therefore, we try to ensure that relevant articles, as well as promotional material, are readily available to all our customers.

Our Vision

- To deliver the best possible customer service, excellent quality and the most advanced products. Brandon Heal Medical's policy is simply to be "Brilliant by Design". We want to be the automatic supplier of first choice to our key customers by providing them with the best products and a personal service.
- To contribute our extensive knowledge of medical procedures to medical professionals in hospital and other medical institutions.
- To introduce and support the implementation of innovative medical treatments to replace out-dated traditional procedures and technologies.

Our Mission

- To enhance healthcare delivery through the provision of high and innovative laboratory and diagnostic product while providing the finest available technical services and support to every customer.

Values & Strengths

- Our people have a strong desire to do the "right thing" and to deliver the promises that we make. We maintain very high levels of innovation, knowledge & technical expertise to deliver integrated solutions that work. We aim to build on the traditional values of trustworthiness and to build strong partnerships with our customers and strategic partners.

Our Expertise

- We maintain the highest levels of expertise to enable us to deliver on our values. Our medical technology skills span research, design, electronics, IT, lighting, engineering, and software, AV, manufacturing and building services.

WHY HAEMONETICS

Suppliers

Performance, expertise and trust are at the core of our business. Through a combined years of experience, we've built valuable relationships with key opinion leaders, which has led us to become both experts in the field and extremely knowledgeable of the regulatory landscape. We are proud to say we are on solid financial standing, have a positive credit history and an unmatched payable record. Our distribution network is secure, professional and thoroughly vetted.

To further reinforce our industry position, we've developed strong relationships with customers whom act as the industry watchdogs for trade and patent infringements. We are certified/licensed by the State Kenya to distribute pharmaceuticals. While self-financed, we maintain close ties with financial institutions. We understand the culture of emerging markets, and bear the financial risk for all international markets.

Additionally, we offer our partners a host of other leading services, including:

- Providing a fulltime advisory board comprised of industry leaders to assist in direction & strategic growth.
- Maintaining adequate quantities in stock to support customer needs.
- Validating our customer's compliance, which is held to our same high standards.
- Alleviating the hassles of supplies, maintaining numerous smaller customers through one solid relationship with Haemonetics.
- Maintaining adequate quantities in stock to support customer needs.
- Restricting the sourcing/distributing of competitive products for customers

Customers

Small enough to sidestep red tape, big enough to provide world-class customer service and attention to detail; welcome to the world of Haemonetics. We are focused on continually growing our product bases to support our customer's growth.

The wealth of benefits we offer customers includes:

- Serving as a conduit/liaison between manufacturers and distributors.
- Consolidating non-competitive merchandise.
- Loading & preparing containers for export.
- We are a master re-distributor; we only sell to distribution partners and have the best negotiated rates in the industry.
- We have the ability to offer credit terms to customers to allow for growth.
- We provide technical support and on-the-job training overseen by a full time medical professional.
- We have the ability to act as sourcing agent to satisfy customer's needs.

OUR VALUES

Haemonetics East Africa Limited is committed to strong leadership to achieve excellence, accountability and compliance based on our values of:

SAFETY

Compliance to health and safety for the protection of our staff, customers, suppliers and the community.

INNOVATION

Understanding our business environment, utilization of imagination and creativity, striving for continuous improvement

OUR CUSTOMERS

Understand the needs of our customers and develop solutions. Promote mutually beneficial relationships and deliver high quality projects in time.

OUR STAFF

Respect and care for their well-being and development. We have qualified and experienced personnel and maintain an atmosphere of trust, empowerment and team spirit.

EFFECTIVE COMMUNICATIONS

Consistent, true and concise communication to our clients and the community.

ENVIRONMENTAL MANAGEMENT

Haemonetics East Africa's health and safety commitment goes far beyond regulatory compliance and good business practice; it's an integral element of our core values. We subscribe to the belief that accidents are prevention has much value as quality, morale, production costs etc. Haemonetics' dominant safety philosophy continues to encourage employees to protect and support each other within the work environment.

AS SUCH, HEAL;

- Promotes a culture of health and safety
- Complies with regulatory standards
- Continually enforces health and safety measures
- Promotes employee and employer participation in health and safety
- Regulate employer and employee responsibilities in identifying and
- Entrench the right to refuse to work in hazardous condition measures controlling unsafe conditions and most importantly, unsafe work practices.

HEALTH AND SAFETY MANAGEMENT

Our Board of Directors and staff are totally committed to the implementation and continuous improvement of the Integrated Management Systems governing our Health, Safety, environmental and Quality Codes of Practice. These systems are living documents that are continually reviewed and improved in line with industry best practice. First and foremost the guarantee of the health and safety of our employees and of all those effected by our construction operations is an absolute pre-requisite to conducting any work at any time.

We have developed our systems and procedures over many years based on these ethics. As a result of this approach and investment, we have won many awards and are ranked among the top performers in the East African construction industry in terms of the management of Health and Safety at Work.

Our Safety Management System complies with the requirements of ISO 18001, and is fully audited and certified. Implementation of our environmental policy is strongly supported by our Board of Directors and through the empowerment of all of our employees.

The Management System Committee coordinates the network of environmental correspondents, organizes technical working groups bringing together experts from each business line and guides.

The Group's overall environmental action policies. We are proud of our management systems, which have been developed and constantly improved on for over 6 years. They are an integral part of our management activity and are implemented through a comprehensive.

The Group's overall environmental action policies. We are proud of our management systems, which have been developed and constantly improved on for over 6 years. They are an integral part of our management activity and are implemented through a comprehensive set of procedures and controls which are documented in accordance with ISO 9001:2008.
